In the Interest of the Navajo Indians

WASHINGTON, March 17.—[Special.]—D. M. Riordan, Fort Defiance, New Mexico, agent of the Navajo Indians in that territory, is here to urge congress to extend the boundaries of the Navajo reservation. He says the Indians were placed on the present reservation by General Sherman in 1868, and that a promise was made in the treaty then made [illegible] be kept by the government. He says the government owes the Navajos $500,000, not and [illegible] no intention to pay and [illegible] the boundaries of the reservation [illegible] a new survey made so that white settlers will [illegible] encroaching on the reservation and there is great danger there will be an outbreak and a bloody war in a very short time. The Navajos have [illegible] with this government as long as can be [illegible]. He says the tribe numbers about 18,000 [illegible] women and children. Riordan said this morning [illegible] before the house committees on appropriations and Indian affairs and stated to them the facts [illegible] and they cannot say they are ignorant of the matter. I have lived almost sixteen years among the Indians and know them pretty thoroughly. I think the government has had faith in the Indians more generally. In the particular case of the Navajos, if they are given tools and the reservation boundary is fixed they will [illegible] peaceable as long as the tribe is in existence [illegible] there is sure to be serious trouble.

Sort of the Cuban Bandits

WASHINGTON, March 17.—An exchange of diplomatic [illegible] between Secretary Frelinghuysen and the Spanish minister, Secretary Folger has referred [illegible] Key West to prevent the landing of a gang of Cuban bandits at that port from [illegible] steamer. The gang referred to are regarded as outlaws and not political offenders, and upon this representation the order was [illegible].

KEY WEST, March 17.—The brig Screamer from Cuba for Portland arrived last night having [illegible] twenty-one Cuban women and children. It is alleged the dispatch [illegible] refugees. It is alleged these be bandits. The revenue cutter Samuel Dexter, Captain Gabrielson, was [illegible] for the Screamer and fell in with her at [illegible] this morning. The brig is in bond [illegible] under the surveillance of the District [illegible] is anchored near by. Captain Gabrielson has [illegible] to Washington for instructions. Captain [illegible] master of the Screamer, is a Spaniard [illegible] and claims that the passengers are [illegible] refugees, and not bandits.

Southern Fast Mail System

WASHINGTON, March 17.—Postmaster General Gresham [illegible] here Wednesday. Before leaving [illegible] he had a consultation with the officials of the Illinois Central Railroad Company, and it is [illegible] will result in the establishment of a fast mail service from Chicago to New Orleans [illegible]. The proposed new service will connect with the New York fast mail and will leave Chicago at [illegible] reaching New Orleans the following day. [illegible] mail service recently established [illegible] no more than the old fast time.

For the Foot and Mouth Disease

WASHINGTON, March 17.—A telegram was received at the treasury department to-day from J. H. Sanders, secretary of the cattle commission, saying [illegible] sent by the commission pronounce the disease [illegible] Illinois not the foot and mouth disease. [illegible] of the cattle commission [illegible] to Kansas to investigate the reported [illegible] of the foot and mouth disease.

Senate.

WASHINGTON, March 17.

[illegible] offered the following resolution, which [illegible] agreed to:

Resolved, That the committee on public lands [illegible] inquire in what manner large quantities [illegible] have become transferred to [illegible] by foreign corporations or syndicates, and [illegible] legislation is advisable to prevent [illegible].

It was reported favorably from committees [illegible] placed on the calendar:

[illegible], from the committee on [illegible] to fix [illegible] of judges of United States [illegible].

[illegible], from the committee on public lands, to [illegible] right of way over public lands of the [illegible] to the Lost Lake and Mount Hood Improvement Company.

[illegible], from the committee on judiciary, to [illegible] prosecution of proceedings in bankruptcy [illegible].

[illegible] joint resolution appropriating $[illegible] to suppress the foot and mouth disease was [illegible] and Bayard addressed the senate. He said [illegible] has always been exercised by states [illegible] by the general government [illegible] authority in the done it at on for [illegible] proposed. That the appropriation [illegible] utterly inadequate was apparent. [illegible] authorized to make such appropriation [illegible] this would be followed by [illegible] for cattle slaughtered in order to accomplish [illegible] the disease.

[illegible] said he had not been able to bring him [illegible] approval of Coke's amendment, which [illegible] the word Kansas from [illegible] so as to make the fund applicable to [illegible] affected. He thought he had seen in the [illegible] a spirit shown—a suggestion [illegible] was in the United States government [illegible] power to do the thing contemplated. If the United States government have the [illegible] then no assent which a state [illegible] would come within the provisions of the [illegible]. While he would be glad to see the [illegible] state given to every notion of congress [illegible] he was opposed to asking states for [illegible]. Pendleton continued at some length [illegible] the doctrine of state's rights and the dangers [illegible] centralization.

[illegible], while not favoring every measure proposed [illegible] in state affairs by the general government, said he thought there were measures [illegible] intervention was justifiable and [illegible]. These contagious communicable diseases [illegible] could not be extirpated by those [illegible] with stock constantly moving from [illegible] to another. No interest in the country was [illegible] importance than agriculture. The total [illegible] sheep, horses and hogs in this country [illegible] to the enormous sum of $[illegible] and [illegible] government would be most neglectful if it did not intervene to protect so large [illegible] an interest. If this disease [illegible] how could states entirely separately [illegible]. He submitted to those opposing the [illegible] whether one state had the constitutional [illegible] that formed a part of the [illegible] of the country. [illegible] splitting hairs while property [illegible] was going to destruction. He wanted [illegible] States government to throttle the [illegible] or it may have a great deal more to [illegible].

[illegible] there was danger of a spread of the [illegible] over an enormous region of country [illegible] dangerous power given the commissioner [illegible] agriculture and as to the fear that further [illegible] be incurred he (Plumb) would propose an [illegible] providing that the general government [illegible] be responsible for anything. [illegible] There was great danger [illegible] something was not promptly done [illegible] and American meats excluded not merely [illegible] from which it has been here [illegible] from all the countries of the civilized [illegible].

[illegible] a conviction that the senate had [illegible] power or right to undertake the [illegible] by the measure under the [illegible]. He therefore pressed his motion to [illegible] postpone.

[illegible] taken on Harris' motion it was rejected [illegible] nays 31.

[illegible] on Hoar's motion to print [illegible] until Friday that gentleman [illegible].

[illegible] thought the senate was wasting [illegible] of this measure because it did not [illegible] of the case. He was in favor of [illegible] measure.

[illegible] there was no probability that the [illegible] a bill would become a law [illegible] and possibly it might not become a [illegible].

[illegible] amendment to add the words [illegible] spread of the disease to other states [illegible] (which amendment was accepted by [illegible]) and he did not believe congress had [illegible] right to appropriate money [illegible] for the purposes indicated by that amendment.

[illegible] moved to increase the amount appropriated by the resolution from $25,000 to $50,000.

[illegible] moved an amendment stating that the object of [illegible] appropriation was to obtain and disseminate information in relation to the treatment and [illegible] of diseases. Bayard's amendment [illegible] agreed to.

[illegible] then moved an amendment agreed to [illegible] provide that no action of [illegible] commissioner of agriculture under the joint resolution [illegible] commit the government beyond the amount [illegible] appropriated.

[illegible] resolution then passed—yeas 39, nays 14. [illegible] It appropriates $50,000, to be used by the [illegible] of agriculture with the co-operation of the authorities of states in which it may be [illegible] to stamp out the foot and mouth disease [illegible] will not be committed beyond the [illegible].

[illegible] presented the credentials of [illegible] election [illegible] to be senator from Kentucky for the [illegible] March 4, 1885.

[illegible] amending the court of Alabama [illegible] passed.

House.

WASHINGTON, March 17.

[illegible] introduced by Hewitt of New York [illegible] the coinage of the silver [illegible] unlawful for the secretary [illegible] and issue treasury notes [illegible] of two [illegible] the New York chamber of [illegible].

[illegible] a resolution authorizing [illegible] attendant on the [illegible] the United States [illegible] Company, also to the duties of [illegible] the United States and the power [illegible] refer to [illegible] calling on the postmaster general [illegible] further correspondence between [illegible] and the postoffice department at [illegible].

[illegible] New York. Authorizing the secretary to pay $[illegible] to Mrs. Sep [illegible] granddaughter of [illegible] from the committee on revision of the law to suspend the rules and pass a bill amending [illegible].

[illegible] regulating the standing of [illegible].

The motion was opposed by Calkins, Browne and Reed [illegible] that the bill [illegible] the United States [illegible] charged with [illegible] the [illegible].

It was supported by [illegible] who asserted [illegible] right to be [illegible] was [illegible] liberal [illegible].

The motion was lost, yeas [illegible], nays 91 [illegible] necessary two-thirds [illegible] in the affirmative.

THE [illegible]

ST LOUIS, March 17.—A dispatch from Fort Worth, Texas, says: [illegible] trouble has broken out between the Missouri Pacific railway and the Texas express company. The former does not permit the latter to transmit [illegible] Saturday the Texas express [illegible] that it should take their freight. This was declined and the Texas express blocked the way of the Missouri Pacific railway cars and by force prevented the [illegible] express from loading their freight. Yesterday the railroad [illegible] but no [illegible] Superintendent Van Tyne of the Missouri Pacific railway issued an order which was thought to insure shipment [illegible] goods but the Texas express folks say the [illegible] and the state law has been [illegible].

A FRANKLIN [illegible]

The legal tender decision of the Supreme Court has [illegible] among the Democrats in congress. During the past week three propositions have been presented looking to an amendment of the constitution limiting the power of congress to issue paper money. Some members affect to believe that this is the last that will ever be heard of these propositions, but if one may judge of the sentiment they have occasioned among persons ordinarily uninterested in financial questions this is not probable. Serious attempts will be made within a very short time to bring the matter forward again. Porter of New York in a proposition submitted Monday last proposes to limit the power of congress to making only gold and silver legal tender. Hewitt of New York has offered a similar bill expressing the same idea in fewer words. Senator Bayard has now before the senate a resolution which he says he will call up soon authorizing the judiciary committee to inquire into the subject and report a suitable amendment to the same effect. Senator Garland, who is a Democrat of more liberal tendencies than any of these, has offered an amendment restricting the issue of paper money to $350,000,000 unless two-thirds of congress shall vote to issue a larger amount.

A GOOD COMPARISON.
The Rev. William Boulatt, a well known Methodist clergyman, residing at Naples, draws the following amusing, but apt comparison between *Dr. C. McLane's Vermifuge*, prepared by Fleming Bros. of Pittsburgh, Pa., and a ferret.
"A ferret when placed at the entrance of a rat hole enters the aperture, travels along the passage, seizes upon the rat, exterminates his existence and draws the animal's defunct carcass to the light. And in like manner have I found *Dr. C. McLane's Vermifuge* to operate upon worms, those dreadful and dangerous tormentors of children. This remedy, like the ferret, enters the aperture of the mouth, travels down the gullet, hunts round the stomach and lays hold of the worms, shakes the life out of the reptiles, sweeps clean their den, and carries their carcasses clear out of the system. This, at least, has been the effect of the Vermifuge upon my children."

NORTHERN PACIFIC RATES

Against the new tariff of the Northern Pacific loud protests are going up from points in eastern Washington, eastern Oregon and northern Idaho The Northern Pacific, it is asserted, has resolved to favor and protect Portland at the expense of all points lying east of it and to secure this result Portland is given lower rates from the east than are given to points much less distant from the eastern terminus of the road It is complained by Walla Walla, Pendleton Dayton, Spokane Falls, Cheney and other towns that the object of this policy is clearly to make them contribute to the trade and aggrandizement of Portland

This, from their standpoint, is a natural conclusion They say "We want to trade with the east, the railroad compels us to trade with Portland It wants to build Portland up at our expense. The reason must be that it has great interests at Portland" Now while it is not surprising that these protests are made or rather while it would be surprising if they were not made, yet we do not think the protesters have touched the real reason on which the new tariff is based It is undeniable that under this tariff Portland has advantages Why have they been given? Not because the company is looking to the advancement of the interests of Portland but because it studies the promotion of its own interests It is well known that when the Villard management came to an end the direction of the Northern Pacific again fell to those who never had been specially devoted to Portland and since Villard's retirement it has been announced repeatedly that the original object of fixing the terminal point at Puget Sound had been resumed We do not think the Northern Pacific has any desire to build up Portland, and therefore we look for explanation of the new tariff in the view taken by the company of what its own interests require

Upon what then, is this view based? Portland is the principal commercial point of the northwest. It is a seaboard town and a point which may have the benefits of competition both by sea and rail, its trade is extensive and the Northern Pacific must have it Yet it cannot have it unless it enables Portland to do business with the interior For if interior points be cut off from Portland by the Northern Pacific, her merchants will go at once to the Central and Southern Pacific, which will be glad to award them low contract rates, the O R & N in order to protect its own business, will second the effort and the Northern Pacific will bring upon itself a severe competition for nine-tenths of the trade of the Pacific northwest Probably it feels that it cannot, in its present financial straits, afford this Again the O R & N will connect with the Oregon Short Line within a very few months, and if the Northern Pacific will not make rates to enable Portland and the O. R & N to do business with the country, the Short Line will In other words, Portland has a favorable position and that position will always secure advantages to her

These are the conditions under which the Northern Pacific has made this tariff Then too, since a heavy traffic can always be done at lower rates than a light one, Portland, taking ten or one hundred car loads of freight to one car load for any other single place in the northwest, becomes an objective point, and the law of traffic favors it Such advantage as Portland possesses through this tariff has come to her without effort on her part to secure it and even without solicitation But the situation imposes responsibilities on her To do her share of the business of the country her merchants must pursue an enterprising and liberal policy Portland cannot reasonably be blamed by interior towns for having the advantages which her position and the conditions of trade secure to her But she will be subjected to just censure if she fails to use those advantages in a liberal manner for promotion of the vast and varied interests of the country

Some of the most prominent and conservative men in the eastern cities are protesting against the filling of any more treasury vaults with silver dollars that the public will not use, and that will sooner or later result in expelling gold from the country The chamber of commerce of New York has presented a memorial to congress recommending that the coinage of silver dollars be suspended for two years and that in order to bring into gradual circulation the surplus coin in the treasury the further issue of bills of a smaller denomination than $5 be discontinued This is the recommendation made in the bill submitted by Judge Kelley While leading financiers acknowledge that there is no occasion for immediate alarm, it is plain that we are pursuing the wrong course, and if we continue in it, we will surely get into trouble The drift is towards a silver basis Gold is going abroad to pay our debts, and the time is within sight when the continuance of silver coinage will act as a depreciation of the currency and expel the gold If the crops of the country are good this year, and have an exportable value the danger may be deferred But the government has already extended all the protection to the silver mining interests, it can afford, and congress cannot too soon for the credit of the nation, stop coining the legal tender dollars.

An effort has been made this winter in Massachusetts to restore the old system of the double taxation of mortgages and real estate, which, after a long trial was abandoned a few years ago This movement has called forth a strong protest Mr Charles E Endicott of Boston says that the old system was simply extra taxation of the borrower as the tax was never paid by the capitalist, but was included in the rates charged to the borrower. The effect of the repeal of the law of double taxation has been that the amount of the old tax has not been included in the rate, and borrowers thereby have obtained money at from 1 to 1½ per cent lower than before. It is asserted that this decline in the interest rate is attributable solely to the lower money market generally, but it would be impossible to borrow money to-day at 4½ per cent, if the lenders were subject to a tax of 1½ per cent as formerly, thereby reducing the rate realized by them to 3 per cent "In fact, says Mr Endicott, "a large portion of the mortgages made since the present statute was passed have clauses inserted that, in the event of the old tax being imposed again, the mortgagors will pay an increased rate of 1½ per cent"

The St. Louis *Globe-Democrat* says that "the next presidential election will be determined by the vote cast within four miles of the City hall of New York. If this vote shows less than 40,000 democratic majority, the president will be a republican, while if the majority exceeds 60,000 the chances will be the other way This view of the importance of that vote gives additional consequence to the course of John Kelly, the Tammany boss A correspondent of the Cincinnati *News* represents him as saying in reply to the question as to what Tammany would do if not admitted to a voice in the selection of the candidates at the democratic national convention "Then we will, like good democrats, bow to the decision of the majority and go home and work and vote for the convention's candidate"

It might be unfair to intimate that Mr John Wilson, when he resigned the directorship had Mr. Roscoe Conkling in his mind's eye, for doubtless he would remember that Mr. Conkling, when he resigned in order to be re-elected wasn't re-elected Whether Mr Wilson really desires re-election we know not, but are quite sure that if he should he would not be chosen again if some man of character equal to his own but with more economical views as to the schools of this city, were put in nomination against him

A paper called the Coeur d Alene *Nugget* has been started at Eagle City. The first number appeared on Saturday, March 15. From it the following compilation is made

THE PLACER DIGGINGS

It is impossible at the present time to give much authentic information relative to richness of the placer diggings The Widow has unquestionably yielded from $12 to $20 per day to the man The aggregate amount of dust taken from the claim exceeds $18,000 The Peters claim [illegible] about three weeks, and cleaned up from $10,000 to $[illegible] according to the statements of Dr Campbell who was in a position to know the facts W I Cole saw one lot of dust weighing $800 which the parties asserted had been washed out by three men in three days the work having been performed in six inches of water Eleven claims have [illegible] sluices and are said to be down to bedrock These are the Widow, Ives Happenstall [illegible] Macomber Campbell, Points & Co M Queen [illegible] George Murray Rockford Company and Altoona & Co On all these claims and many others work is now progressing Drainage ditches are being constructed and sluices are being placed in position The Widow claim is now in shape for mining and pay dirt is being washed On Bear gulch and all the numerous tributaries of Pritchard creek the miners are busy at work A few weeks will solve the problem fully and golddust will either be plentiful in the various camps or else the mines will be voted a failure so far as placer diggings are concerned No fears are entertained regarding the result by those whose money is invested On the old [illegible] it is boldly asserted that the question has been fully decided and the answer is "There's millions in it

EAGLE CITY.

The metropolis of the Coeur d Alene needs no word of praise Beautifully located peopled with men of energy and enterprise and offering superior inducements to capital, she has burst into a city in a day To number the business houses this week gives no idea of the number that will be established next week People who were here a fortnight ago can hardly recognize the place to day Houses and tents appear like magic where yesterday were only snow drifts or tamaracks New signs painted on canvas peep up in the most unexpected places and give legends concerning the most unexpected [illegible] "Tin Shop Jeweler Hardware Market Dance House," Theater, and the like confront one so suddenly as to excite an exclamation of astonishment Everything is new, but all denotes enterprise and permanence Some very fine houses are being erected Buildings that will be no disgrace when brick and lumber have superseded logs [illegible] being put up in all quarters of the town The advent of a saw mill would greatly accelerate the growth of the city, but if saw mills are delayed people will not wait for their coming A city full of people has arisen from the snow as if by enchantment and the strangest part of all is that her present growth is not even an intimation of that to come

THREE OUNCES PER DAY

Among the many proofs of the richness of our mines the following is worthy of mention W T Stillwell a gentleman well posted concerning mines bonded a mine last fall prospected it and has recently purchased. He has invested $11,500 in mining property on Pritchard creek and expects to make still heavier purchases at an early day He has seen three ounces per day taken out of the mine and knows of mines that have paid better Mr Stillwell occupies a prominent position in the community and whatever he says can be accepted as a fact

HOW TO BRING IN GOODS

Parties desiring to ship goods to the new mines should know the following facts Only two routes at present exist over which freight can be conveyed one from Spokane Falls and Rathdrum the other by Trout creek The first carries freight by pack trains the latter is traveled by sleds and toboggans The latter is the most quickly traveled from the railroad, the former is surer, cheaper and carries the great bulk of goods These facts apply however only to the immediate present A week may entirely change the current of travel and freighting Over the Thompson's falls road men are carrying heavy loads, and the prospect of the speedy completion of this road to the mines has induced two saw mills and much freight to follow the workmen in order to come in with the first rush The same can be said of the Belknap road Several stocks of merchandise have started in on that road and keep pace with the progress of the workmen When either the Thompson's Falls or Belknap routes are finished to the summit toboggans will at once connect the road with the mines and in a few days sleighs will be driven the entire length of Pritchard creek The North Fork route is liable to be open any day for the transportation of goods from Fort Coeur d Alene Whenever the river is sufficiently high the easiest and cheapest transportation it is claimed will be by this route The jackass trail will soon be in operation, and at the earliest possible moment a wagon road will be cut through by the Spokane Falls Transportation Company Freights are 20 25 and 30 cents per pound, and no material reduction can be expected until new roads are opened Storms are not likely to effect serious blockades, for so many people are scattered along the several trails that the new snow will soon be beaten down The greatest danger at present is from sudden melting of the snow A Chinook would render the Trout creek and Evolution trails impassable in a very few days

QUARTZ BONANZAS

Frank Reed owns two quartz lodes one of which the Big Bonanza assays 400 ounces to the ton in silver The other the Lucky Baldwin is a three foot ledge, and the assayer's returns which we have seen show the rock yields $602 28 per ton gold and 70 10 ounces silver This ledge was discovered in Dream Gulch above Murryville and was only six inches wide at the surface By sinking four feet lower the width was increased to three feet as above stated Specimens of the rock can be seen at the Pioneer store with free gold sprinkled plentifully over its surface About 500 feet below this ledge Messrs Davis & Laird picked up a $10 nugget interspersed with the quartz of the same character as that found in the ledge

W J Shelton has rock which came from a ledge in this district the assay of which is in his possession, which yields 100 ounces in gold and fifty ounces in silver

Dr Campbell has found very fine quartz specimens in his ledge on Eagle creek a short distance below Eagle city A $40 nugget mixed with quartz was picked up on the Moscow company's claim

The Mother Lode about six miles above Eagle on Pritchard creek can be traced for some hundreds of feet Dr Campbell gives the assay of rock from this ledge as $10 30 in gold and 33½ ounces silver

William M Sutherland owner of the Sunset ledge on the head waters of Beaver, has a ledge from five and one-half to seven feet wide in sight and it can be traced on the surface for a distance of 1500 feet A number of assays have been made with results varying from $2[illegible] to $[illegible] 000 The rock yields about 78 per cent lead and is the first authentic discovery of galena in the new mines

Mr Copeland brought from the Golden Chest a piece of gold bearing quartz to William Coles, which was about six inches in height and width and eight inches long This was broken in pieces about three inches square, and these pieces found ready sale at $5 each Over a teaspoonful of pure gold was caught in the newspaper over which the specimen was broken

EAGLE CITY PRICES

As the cost of living inter ests every one whose eyes are turned toward the Coeur d Alene we herewith give the prices of many of the leading articles required by parties who come here We are indebted for the quotations to Samuel J Hayes and his name is a sufficient guarantee of their correctness Mr Hayes wishes it understood that while these figures represent the prices at present charged at his store for goods the condition of the trails may at any time cause fluctuations These are the rates however at which he now offers the following articles Flour per barrel $60 per sack, $15 coffee per pound 50c sugar per pound, 50c beans per lb 50c candles per lb 50c dried fruits, per lb 50c tea, per lb $1 [illegible] bacon per lb 40 tobacco per lb, $1, potatoes per lb [illegible]c lard per lb 40c soap per lb, 25c, assorted jams per lb 75c yeast powder per lb, 75c spiced bacon per lb 50c ham per lb 50c, soda per lb, 25c canned fruits 2½ lbs, $1 cheese per lb, 25 salt per lb, 25c crackers per lb 30c butter per lb 75c corned beef 2 lbs $1 syrup per gal $4 50 coal oil per can $7 50 Jamaica ginger 3 bottles $1 cigarettes 3 papers 50c cigars per M from $40 to $150 liquors per gal $8 saws per foot, $1 whipsaws from $12 to $16 stoves from $40 to $150 underwear flannel $5 brooms each $1 25 shovels each $2 50 picks each $2 50 to $3 axes each $2 50 buckets each $1 75 ax helves each 75 canvas per yard 30c house lining per yard, 15c calico 25c, overshirts, $2 50 to $5 50 boots per pair $7 to $12 boots, gum, per pair $8

WHO ARE HERE

Among the 3000 people who have thus early found their way to the Coeur d Alene mines a large proportion are business men They are men of means of energy, of intelligence who come here to obtain the first opportunities of investment which are so desirable in all new camps They are shrewd thoroughly informed men who eagerly compete with each other for the numerous business prizes which are to be drawn in this great mining excitement lottery There are hundreds of laborers here—hewers of wood and men who are content to earn honest wages for honest work They are stalwart sinewy fellows who toil early and late, in snow and storm or sunshine These are they who are building cities in these desolate mountain wilds There are gamblers here of that rest assured There are hundreds of them—gamblers of the genuine Bret Hart style men of large hearts of generous impulses men to whom, of all that are in camp you would go first to ask a dollar with which to buy a meal Men who would never refuse you so long as they had the dollar Gamblers there are too who are not of this stamp Men who are constantly begging stakes of the better class with which to fleece victims. And the victims are here, Lots of them Some are workmen and lose their wages every week Some bring a little money with them to the Coeur d'Alene, and return home broke The girls are here too, and more of them come every day or two Some of them dress stylishly and wear silks and diamonds Some dress coarsely and slovenly Quite a number wear men's clothes and walk the streets in garments which would excite the envy of Susan B Anthony Boys are here mere youths not yet out of their teens It is a terrible school for lads yet they have come with the rest There are old 49 ers here Men whose hair and beard have been silvered in the tireless, persistent search for gold which will never end till life's close They are all prospectors and you find them living a hermit's life in little cabins up lonely gulches And the miners are here The true grand souled old time miners with their blue shirts and open palmed hands Their cabin their fare, their blankets will be shared with the stranger just as it used to be in the golden days on the American and Yuba, just as it always has been where there were miners If any class should be monarch among men, it is these same miners They laugh at hardships and privations they never think of shirking work or of doing a dishonorable act and when the dust is panned out, it goes as easily as water Bye and bye many a rough hard character will come, many a bully, cutthroat scoundrel but so long as the miners are in the majority the camp will be all right The miners are the men upon whom depends the fate of the country the men of all others who will rule the camp Ah yes another has come the Angel of Death Neither the snow, nor the rugged mountain, nor the silent forests, nor the deep dreary canyons could hide from him this new born camp He has come and his minions has borne some of our number beyond the worry and weariness of this struggle for gold Under the hillside snow lie four of the boys who came eager and thirsting little dreaming that their bones evermore would rest among the gold dust they came to find Yes the Angel of Death is here and scores and hundreds will acknowledge his presence ere the year closes and next winter's snow will find them sleeping under the snow among the golden sands

MINING CAMP NOTES

The leading saloons take in from $250 to $400 a day each

About 250 Black Hills miners are in the diggings, and 2000 more are said to be coming

Shelton & Co bought and sold $3000 worth of gold dust last fall, which was from the mines on Pritchard creek

Frank Reed, of the pioneer store has purchased sixty ounces of gold dust from which the returns were $18 12½ per ounce

A cow was driven over the Evolution trail, February 17, and sold to Main & Brown for 35 cents per pound On March 4 sixty two head of sheep were driven over the Trout Creek trail and the mutton sold at 30 cents per pound On the same day four beef cattle came in from Evolution

It is nothing unusual for two or three hundred men to come into camp in a day over the different trails No attention whatever is paid to the new arrivals as they file through the streets

The Pioneer restaurant is so overcrowded that from 50 to 100 customers are turned away every day As meals are $1 each it can readily be understood that the above indicates a rushing business

Charles R [illegible] the well known Black Hills pedestrian is in town He has been in nine walking matches eight of which he won the most important contest being in Chicago [illegible] wishes to wager $250 that he can walk from Trout creek to Eagle over the trail in ten hours, and carry one hundred pounds of flour

As high as 10 per cent premium is paid for silver and a carload would find sale at 10 per cent Mr Denny has sent [illegible] with $[illegible] to bring back silver and other business men will [illegible] follow his example Saloons and business houses lose on an average from $20 to $30 per day by not having change

A petition for a postal route [illegible] circulated throughout the camp The route starts from [illegible] Falls and includes [illegible] Butte City Raven Murrayville Eagle Humboldt Mission and Rathdrum Another route petition [illegible] starts from [illegible] City Trout [illegible] passes through [illegible] thence by Evolution to [illegible]

Merritt & Wise have exhibited true enterprise by opening up a well stocked meat market One hundred and fifty [illegible] sheep and six beeves weighing 800 each dressed was their first supply The meat makes a fine display and is such as would be found in any market Arrangements have been made to keep up the supply

Mrs M Chandler of Osburn was the only white woman who wintered in the Coeur d Alene She and her children [illegible] came over the Evolution trail in October and located about two miles above Eagle Until the trails became impassable the boys of Eagle used to send their clothes up to Mrs Chandler to be washed

Two ladies have been brought into camp on the Trout creek trail One was drawn in a sort of cradle sleigh and the other was carried in the arms of its father [illegible] seems like an unhospitable place to bring a family to but many a devoted wife and mother will share the perils and privations of [illegible] life here in the spring opens

The reports concerning the cold weather in the mines have been ridiculously exaggerated Mr W J Porter has kept accurate thermometrical records during the winter and the lowest temperature ever reached was 2 degrees below zero, and that on one morning Generally the climate is not at all severe Snow has been six feet deep but at present is less than three feet

J M Daniels who is known world wide as the Barnum of the West has established a theater in Eagle City and the opening night is placed at March [illegible] He is putting up a theater 24x10 feet and will give the gold miners a first class entertainment from the outset It is his intention to give a performance every night with an entire change of programme each evening

Silver and one dollar bills are so scarce in the mines that it is extremely difficult to get change for a five Change is decidedly at a premium and parties coming here would do well to bring in a supply Merchants and business men are very accommodating to each other but all are constantly cramped for change in conducting their transactions

Several disputes over town and mining property have nearly culminated in a shotgun war and on more than one occasion weapons have been drawn and flourished It seems however that no one cares to take the initiative in the shooting festivities Sooner or later however the work must begin, and it will be desperate and bloody Revolvers will go off one of these days like fire crackers during Chinese New Year

As an example of the prices at which buildings are rented in Eagle City it may be mentioned that Frank Reed has a house 0x10 feet in the clear two stories high which costs $1200 and is leased for six months at $300 per month Another 2 x35, two stories high with double glass doors rents for $400 The money was paid in advance before the foundations were laid Mr Reed contemplates building a three story hotel at the corner of B[illegible] and Pritchard streets as soon as the material can be obtained

It is estimated 1000 buildings are in process of construction in the mining district Every man who will work finds ready employment at from $[illegible] to $6 per day There is any abundance of small right timber suitable for log houses and the sound of axes and falling trees can be heard in every gulch and from every hillside Cabins are selling from $50 to $2000 every log delivered on the ground being worth $4 Lumber whipsawed is worth $[illegible] a thousand and finds ready sale Shakes are $4 per hundred the cedar being best adapted to their manufacture

Raven City was founded January 19 Messrs Kennedy and Hanson driving the first stakes When the Thompson's Falls road comes in Raven is bound to become a prominent point At a citizens meeting held there March 1 it was agreed that $100 worth of improvements should be placed on each lot prior to May 1 Two days work on the trail to the summit entitles lot owners to a credit of $10 upon their improvements Some of the rich strikes [illegible] including [illegible] gulch are in close to Raven Mr D Kennedy has made a survey and plot of the town and lots are bringing fair prices

At Butte City February 2 a meeting of citizens was held and it was resolved that in order to secure titles to town lots foundations four feet high must be laid within ten days the lot must be recorded by March [illegible] and a cabin 10x12 must be built on or before May 1 [illegible] worth of improvements must be made None can hold more than two lots Fifty lots were surveyed and located at [illegible] outside the survey A block was leased for a [illegible] house and a hotel [illegible] A number of business houses are going up rapidly and the camp is booming Lots cost from $50 to $400 and are increasing in value almost daily

Sheriff Wm Martin of [illegible] county is in the city collecting licenses Sheriff Dunwell of Shoshone county has collected the greater number but several have paid Mr Martin So long as the boundary line is in dispute parties will pay either sheriff according to their preferences and the circumstances of the case Judge Buck has signified to Mr Martin that it is his intention to hold a term of the district court in Eagle City the first week in July Owing to the locations of the two county seats Kootenai county would be the most convenient one for us to belong to The general opinion however seems to be that we are in Shoshone county Kootenai intends to contest the matter and we shall soon witness the novel spectacle of justice of the peace from both counties holding court in Eagle City

Murrayville is laid out in regular streets on the banks of Pritchard creek in what is known as the George Murray claim The site is one of the most beautiful and romantic imaginable Timber is plentiful, and building is going on as rapidly as in any part of the diggings which means that every man is at work J H Miller is city recorder and Judge William H Clagett is recorder of the Murraysville mining district The boys donated the judge a fine lot and built him one of the best houses on Pritchard creek They have given Dr Lansing a lot on which to erect a hospital and seem ready to [illegible] manner Their faith in the permanence of their city is based on the fact that it is in the very heart of the mines close to the quartz ledges and necessarily near the place where hundreds and thousands of miners will find employment A brisk business is being driven in town lots, prices varying from $100 to $1000

EPP'S COCOA
BREAKFAST.

By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame.—Civil Service Gazette.

CITY.

POLICEMAN SWIFT WAS WHIPPED.—He was a well mannered man who walked into THE OREGONIAN office last evening and introduced himself as O'Grady, "the man who licked policeman Swift." There were a few slight scratches on his face, signs that must have been made by something, and not fists but otherwise his did not look like a man who had been in a fight. "I only struck him," continued Mr. O'Grady, "that there was no bother about the matter at all. I am the last man in the world to make any trouble with Mr. Swift at all, or with any policeman. I was eating my breakfast at the Couch house, where I am employed as a waiter, and in his usual manner he took occasion to complain of that the food set before him. I casually remarked that if he didn't like the victuals he didn't have to eat them. He called me a d—d s— of a b— and aimed a blow at me. If it had hit me would have knocked me down. I warded it off and, being a little mad by this time, I knocked him down and beat him pretty bad. Then some one took me off. I need nothing more. If they fine me and if Mr. Swift is not satisfied, he can get plenty more of the same kind by calling on me at any time." The above statement is given to show the politeness and gentlemanly treatment the policemen whom his patron berates give to the best on the force.

THE RIVER PIRATES MADE THEIR ESCAPE.—Deputy Sheriff C. C. Powell arrived from Astoria yesterday, having in charge Jim Harris, one of the river pirates. Harris is a painter by trade and is well known here. He claims that he is innocent and did not go on the scow until after the goods had been brought aboard and supposed the scow had bought the provisions, as they had plenty of money. They did not tell him so he says that they were stolen until the day before the officers made their appearance. The gang had a good laugh at the expense of the policemen and deputy, who regarded them as not at all ... and on the bow of a steamer ... one of the party ... he relates that as soon as the boats jumped ashore they climbed to the top of a neighboring hill and watched with much amusement the futile efforts of the officers to find them. Soon after the police re-embarked the gang went to Bill Kalama, "borrowed" a small boat, rowed to the opposite shore, chartered a hand car at the station (the boss was absent), ran it to a point a few miles below the city, and walked to Linnton. The party were several hours. Harris then went to Scappoose ... then down the Sandy to the rail ... then to Bonneville where he took the cars for ... Falls. He says he does not know the whereabouts of his fellow fugitives.

FLOWERS FROM CHILDREN.—Yesterday being the anniversary of the birthday of Prof. I. W. Pratt of the North school the pupils there determined to celebrate it in a manner which would properly indicate the relations existing between they bear their principal. Shortly before the school was called together at 1 P. M. the pupils, representing all the grades in the school, lined up on the outside steps each presenting a bouquet or basket of flowers to Prof. Pratt at the same time wishing him many happy returns of the day. The hundreds of children around him with smiles and good will for their principal. The largest bouquet or basket was attached to one as a memorial of the occasion expressive of the affection of the donors. Prof. Pratt acknowledged the compliment shown him in a brief but well chosen appropriate speech. Holding up a few of the bouquets in his hand he poetically compared the young lives about him to the flowers. As flowers will fade and die but remember them, the good and kind actions of your lives can never fade. Like them like the beautiful flowers let all your thoughts and may your lives expand into all that is noble true man and womanhood.

PATRICK'S DAY AT ST. LAWRENCE CHURCH.—Yesterday morning the beautiful church of St. Lawrence, on Third and Sherman streets in this city was filled with pious worshippers to commemorate the Christian labor and glorious death of St. Patrick, the patron saint of Ireland. At 9 o'clock a line of elegantly dressed altar boys entered the sanctuary followed by three priests robed in costly vestments to celebrate solemn high mass. Rev. Father Bechtle of East Portland officiated assisted by Rev. Fathers Heinrich and Orth as deacon and subdeacon. During mass the Rev. celebrant delivered an eloquent discourse on the labors and life of St. Patrick, and by the narratives of his life incidents and spicy reflections captivated the attention of his hearers in a marked manner. The choir exhibited marked ability in the festivities by the rendition of appropriate music. The solos of Mrs. Wagner, Mrs. Bettgen and Mrs. Raleigh were well received, and the duet by Mr. J. Wagner and Mrs. Raleigh was rendered in a masterly manner.

CHEAP HOODLUMS.—The Theater Comique a variety show and beer joint combined which has opened on Washington street between Front and First, in the place formerly occupied by the Bijou saloon, is the worst haunt of young hoodlums that has ever yet existed in this city. At 11 o'clock last evening there were nearly a dozen boys, between the ages of 12 and 21 years at the tables, smoking and swearing and carrying on upon their surroundings and upon their and those of them who had money—were drinking beer that had been sold by the proprietor of the place regardless of the fact that it is a misdemeanor to sell liquor to minors. Such a place cannot fail to be a hotbed of crime, and should be suppressed or made to conform in accordance with the law.

A number of witnesses from Roseburg and Albany were produced to prove the identity of the woman who received the money while the plaintiff produced several witnesses to swear that she was in San Francisco at the time. The argument in the case will be made by Gaston and Ach this morning and the case submitted to the jury.

TROUBLE WITH A NOISY NEIGHBOR.—H. M. Johnson was tried in Justice Greene's court yesterday afternoon upon a charge of assault and battery committed upon Marshall Anderson. The evidence given at the trial by several witnesses was to the effect that Anderson had been intoxicated and made a great deal of noise in his room much to the annoyance of other persons who lodged in the same building. Johnson and gone into Anderson's room and persuaded better behavior. His demands he endeavored by holding the obstreperous lodger and beat him a good beating if he did no more. The judge found that the behavior conduct was not an assault in the eyes of the law and was obliged to impose the lowest fine $5.

TO THE SCHOOL DIRECTORS OF SCHOOL DISTRICT NO. 1.

PORTLAND, March 17.

The efficiency of the high school is not disputed by me but I am not what is called a well educated man. I would however ask leave to submit to the directors of the public schools the following problem to be by them submitted to the most advanced pupils or professors for solution in order to show their proficiency. If the estimated cost of the high school building submitted to the taxpayers by the directors at the annual school meeting in March 1883 was $75,000, and after the sum of $41,000 had been expended and a further estimate to complete the building was submitted by the directors at the annual school meeting in March 1884 of $41,000, what would the actual cost of the building be, if the latter estimate should be as defective as the former? A chromo will be given for the most satisfactory solution of the problem. INQUIRER.

NEWS OF THE NORTHWEST.

Southern Oregon.

Henry Shaft an old resident of Southern Oregon died on the 11th at his home near Mount Scott.

The amount of money coming to Douglas county for school purposes from the state apportionment is $12,477 91.

The *Independent* says: The Roseburg academy is filled to overflowing with students this term. Three teachers are not sufficient to do the work. There are 205 students enrolled and an average daily attendance of 160 for the last two months.

A Roseburg exchange says: We regret to state that upon last Saturday Judge Mosher again seriously injured his left leg. He has been confined at home since then and his suffering has assumed the form of acute rheumatism.

Washington Territory.

One hundred and twenty-five entries of land were made in Adams county at the United States land office within the past two months. This new county contains a vast amount of uncultivated lands that are eminently fitted for agriculture. Ritzville, the county seat, is rapidly growing into prominence as a business point on the railroad. The town is advantageously situated in regard to the agricultural land, and has the promise of a bright and prosperous future.

Idaho.

Thus far only four deaths have been reported at the Cœur d'Alene mines.

An Indian boy broke through the ice on Cœur d'Alene lake and was drowned.

The population now in the Cœur d'Alene mines is estimated at 2600.

Jumping claims in the mines has ceased, as every nook on Pritchard, Eagle and Beaver creeks, whether prospected or not, has been taken, and on some of the claims the jumping is four deep.

Mission city is full of activity and rustle getting ready to accommodate the rush of travel which must pass through that point to the mines on the opening of navigation on lake Cœur d'Alene, which all anticipate will be free from ice in ten days.

Montana.

B. B. Josselyn has been appointed train dispatcher for the Rocky mountain division, with headquarters at Missoula.

On the 500-foot level of the Mountain View mine, at Butte, a body of 65 per cent. copper ore has been struck.

The school directors of Bozeman have invited bids for building the new $20,000 school house at the river metropolis.

Prominent citizens of Butte have suggested to the city council the propriety of lighting the streets with electric lights.

Billings is moving earnestly in the matter of having a branch of the Northern Pacific built from that town to the Bull mountain coal fields, and with a prospect of success.

Jesse Williams, the negro who murdered James H. Adams at Calgary for a small sum of money, has been found guilty and the death sentence imposed. The execution will take place on the 29th inst.

Helena *Herald*: Miss Mary Virginia Nutall, the first white girl born in Montana, was married the 28th of last month at Raton, New Mexico, to Edward J. Wells, Rev. Mr. Boyle of Trinidad officiating. The young lady was ushered into this territorial world at Virginia City in the spring of 1864, where her people then lived, and her christian name of Virginia owes its origin to her birthplace. The young bride will be 20 years old in April, and is said to be a lovely woman. Her father, Wm. Nutall, is mine host of the Moulton house at Raton, and Mr. Wells is an attache of the hotel.

Major R. A. Allen, United States Indian agent, recently appointed for the Blackfeet, and who has been waiting in Helena for the arrival of his predecessor, Major John Young, is in receipt of news from Fort Shaw that 10,000 pounds of flour have been started by wagon for the starving Indians at his agency. He has also a telegram from Fort Benton that 10,000 pounds of flour and 15,000 pounds of bacon have left that point for the same destination.

Lieutenant Anderson, with six men of Company G, Eighteenth infantry, and four Indian scouts started from Fort Assinaboine last week for the Belknap agency to intercept some Indians who are reported to have killed a white man. Lieutenant Hopkin, Sergeant Perkins and three men of troop C, Second cavalry, left the post with pack mules the same day for the Bear Paw mountains, to break up a whisky trading party who were trading with the Indians and half breeds. But they were unsuccessful, as the party had left the place before they got there.

LEBANON NOTES.

[FROM THE OREGONIAN'S LOCAL CORRESPONDENT.]

LEBANON, March 15.

Fruit men report favorable for a large yield of all kinds of fruit so far.

All are anxiously waiting for the arrival of the fire engine. Word has been received that it is at Portland ready for shipment.

A fire company of fifty-one members has been formed with I. F. Conn as foreman and G. W. Smith and Isaac Bonta first and second assistants.

John Welch alias John O'Brien was arrested by Deputy United States Marshal George Burkhart for giving whisky to Indian George, and will be taken to Portland to-day.

A happy surprise occurred at Mr. and Mrs. Jacob Houck's on last Monday evening, it being the 25th anniversary of their marriage. Quite a number of their neighbors called and spent a pleasant evening and presented them with several valuable silver gifts.

BELGIUM.

CAUGHT CHEATING AT CARDS.

BRUSSELS, March 17.—An army officer here of high grade, well known as a stalwart swordsman and a crack pigeon shot, has been detected cheating at cards. His gains during one week were very large. He at once offered to resign, but his resignation was refused, and an investigation ordered.

THE FOUR FACTIONS.

Who Control the Politics of France's Experimental Republic.

Paris Cor. Louisville Courier-Journal.

The four different political factions of this country will be difficult, nay almost impossible to unite, for each is violent and rooted in its ideas, and if change does come it will strain the very heart strings of France, as her political tempests have done before, leaving her sorely wounded; but with the wonderful vitality and recuperation which seems to belong to her more than any power on earth, she would soon regain her footing and be the gay, brilliant nation she has always been.

There are the legitimists, remnants of what was best in the feudal system, with lofty, noble minds and a keen sense of "noblesse oblige," believers in the divine rights of the bourbon line to reign in France, with poetic, graceful chivalry and devotion to the memory of their late king, Henry V., a patriot who refused a crown for fear of involving his beloved "patrie" in civil war. Truly a royal gentleman.

There are the partisans of the Orleans branch, who revere the memory of Louis Phillippe and esteem the Comte de Paris, not only because he is their chief, but because, should he ever come to the throne, letters, arts, religion and morals would reign by his side in France. I know those who know him well, and hear that his private character has the gentle nobleness which his face indicates; that he is a model husband and a good father. Good traits these to make the foundation of a good king. I have been promised the honor of a presentation to him, after which I will give you my personal observation.

The Bonapartist faction is more numerous than I supposed, and there are even enemies of "Plon Plon" who think him very clever. I think the manifesto which he published last winter was anything but a proof of the existence in his bonnet of the "white feather" for which he is accredited here. But I take less interest in the Bonapartist cause now, my romantic sympathy dying with the young Louis Napoleon.

Among the republicans there are many stalwart men, such as 100 years ago the pioneers of our new nation were, who would give all the world holds dear to them for the sake of their political principle—men to conquer or die, but unhappily not having on their banner, as we had, the glorious motto, "In God we trust," and for that very reason failing in much that we achieved. How sad for France that she has not produced more Calvins and fewer Voltaires!

The Copyright Law.

New York World.

The law to copyright news only proposes to give newspapers for a limited number of hours the exclusive right to the news they expend tens of thousands of dollars in procuring, in order that they may reap the first advantage of their investment in their own circulation.

It is absurd to pretend that the collection of news stands on the same footing with the authorship of novels and plays in the claim to copyright protection. The one is enterprise and investment. The other is creation.

But robbery is robbery, whether the thief steals your money or that which you buy with your money.

The proprietor of a newspaper through skill and enterprise devises methods of obtaining late and important news from all parts of the world. He carries these methods to practical success through the expenditure of a large amount of money. The moment his paper goes to press a person obtains, often through bribery, one of the first copies, steals the news, reproduces it, and publishes it almost or quite as soon as its rightful owner's paper can get into the hands of its subscribers.

The proposed law is designed to put a stop to this sneak-thief business, and to give the newspaper which through its genius and its money procures the news an exclusive right in it for a sufficient number of hours to secure to its own circulation the benefit of its enterprise and investment. It is the protection of property against piracy.

St. Louis *Post Dispatch*: The opposition to the bill for the suppression of press pirates is rapidly disappearing as the merits of the case become generally known. It is not a bill to help the associated press, nor to create news monopolies, nor to favor anybody. It is simply an attempt to sustain the right of ownership in property bought and paid for. The law protects ownership in novels, in books of all kinds, in inventions, in music, in designs, in plays, and in other forms of property which is not less valuable because it is intangible. As it stands the law does not protect the newspaper in its literary property only because it is impossible for a daily paper or newspaper of any kind to comply with the existing copyright regulations. This is obviously a defect, and it is a defect which ought to be remedied. If an enterprising pirate in New York were to collect from the morning papers the choicest news and get out an edition at 6 or 7 o'clock, every one would recognize the dishonesty of the act. But the same act is committed on a smaller scale in every city. The press pirates do not sell their pirated news in the city where it is stolen. That would not pay them. But it does pay to stereotype whole columns of the news and sell the plates to the papers in country towns where the pirated news arrives in the same train with the papers that have been victimized. This is piracy, and this is the dishonest custom which honest newspapers are trying to break up.

Blaine in Pennsylvania.

Pittsburg Dispatch, March 11.

The other delegate from that district will be selected in the adjoining county next week. Mr. Acheson was instructed to use all honorable means to secure Mr. Blaine's nomination, and no one will object to his doing so, for the convention was held at the birthplace of Mr. Blaine at Washington, Pa. The opposition delegate was State Treasurer Bailey, who went to Chicago four years ago and voted thirty-six times for U. S. Grant. He wanted to go again, with the intention of voting for Mr. Arthur, but it is entirely proper that Mr. Blaine's native county should send its ballot for him.

REMINISCENCES OF ROCHESTER.

The Falls of the Genesee and Sam Patch's Fatal Leap—One of Its Business Houses and Its Great Magnitude.

The present floods, which are either devastating or threatening the country in every direction, are justly cause for apprehension. No matter whether they come suddenly or by slow degrees, they are in either case a great evil and much to be dreaded, and yet America will always be troubled by these spring overflows. Probably one of the most disastrous that was ever known occurred at Rochester, N. Y., about twenty years ago. The Genesee river, just above the falls, where Sam Patch made his final and fatal leap, became completely blockaded by ice, forming an impassable dam, and the water coming down the Genesee river overflowed the principal portion of the city of Rochester. This catastrophe would have been repeated the present year had not the energy and foresight of the city authorities prevented it. The writer happened to be in Rochester at that time and was greatly interested in the manner in which this great catastrophe was averted. Every few moments a roar like the peals of thunder or the booming of cannon would be heard, and in order to see this ice blasting process the writer went to the top of the new Warner building, which overlooks the Genesee river. From there he was not only enabled to see the process uninterruptedly, but also the magnificent building which has just been completed. This is unquestionably the finest building devoted to business and manufacturing purposes in America, being entirely fireproof, eight stories high, and containing over four and a quarter acres of flooring. Mr. Warner treated your correspondent very courteously, and in the course of the conversation said:

"We are doing a tremendous business and are far behind in our orders. This is the season of the year when people, no matter how strong their constitution may be, feel more or less, the pain and indisposition, headaches, colds, neuralgia, rheumatism, dull pains, sore throats, coughs—all the ills that flesh is heir to come this time of the year, if at all. It is natural, therefore, that we should be very busy. This is especially true of our Salt Rheumatic Cure, and it is crowding us very sharply for a new remedy."

"Singular, but I had forgotten that you do not advertise to cure all diseases from one bottle, as is generally done by many other medicine men, but I supposed Warner's Safe Cure was for the cure of rheumatism."

"And so it has been until our remedy which was especially for rheumatism and neuralgia was introduced. We have been three years perfecting this new remedy. Study first taught us there were certain powerful elements in Warner's Safe Cure, better known as Warner's Safe Kidney and Liver Cure, that made wonderful cures in chronic and acute rheumatism, but during our investigation we learned of a remarkable cure at a celebrated springs, and put experts to investigate and found that the springs did not contain any valuable properties, but the course of treatment that was being given there was performing all the benefit. By carefully combining the active principles of this remedy with our Safe Cure, we have produced our Salt Rheumatic Cure, and the cures it is effecting are simply wonderful, and I do not doubt it will become as popular as our Safe Cure."

"You seem to talk freely in regard to your remedies and appear to have no secrets, Mr. Warner."

"None whatever. The physician with his hundred calls and one hundred diseases, is necessarily compelled to guess at a great deal. We are enabled to follow up and perfect, while physicians can only experiment with their hundred patients and hundred diseases. With the ordinary physician, the code binds him down, so that if he makes a discovery, he is bound to give it to the other physicians, which of course, discourages investigation to a great extent. This is why the great discoveries in medical science of late years have been made by chemists and scientists and not by physicians, and it in a measure accounts for the great value of our remedies, also for the remarkable success of all those doctors who make a specialty of one or two diseases."

"And you find that you are curing as great a number of people as ever before?"

"Yes a far greater number. We never sold so much of our medicine as now and never knew of so many remarkable cures."

The writer departed after the above interview, but was greatly impressed not only by the sincerity of Mr. Warner, but by the vastness of all he saw. Mr. Warner's medicines are used throughout the entire length and breadth of the land, and we cannot but feel the results they are effecting are really as wonderful as they are painted to be.

TRADE AND COMMERCE.

MONDAY, March 17.

A very active business is doing to-day along the street. Shipments into the interior are quite free, Ainsworth dock being crowded with goods. The outgoing steamer carried the largest freight taken out for months, included in it being 780 tons flour. The incoming steamer brings about 1680 tons cargo.

PRODUCE RECEIPTS—Past 48 hours: 1409 ctls wheat, 510 bbls flour, 1113 ctls oats, 156 ctls barley, 33 sks potatoes, 1759 lbs hides, 55 cs eggs, 66 bxs fruit, 1 bx butter. Also 11,829 lbs hides from the eastern section.

Overland receipts include 50 crts 253 bxs starch, 25 bxs seed, 42 pkgs tobacco, 2 cs cigars, 1 cs cigarettes, 25 bgs seed, 105 kgs horseshoes, 36 bxs 100 kgs nails, 300 cs coal oil.

EXPORTS—Per str Columbia to San Francisco: 1970 ctls wheat, 2290 qr 14,504 hf sks flour, 297 lbs wool, 6124 lbs hops, 4390 sks copper ore, 187 sks potatoes, 12 bxs dried apples, 25 sks dried peaches, 47 bbls beef, 19 rls leather, 14,500 ft ash and maple, 92 bdls hazel hoops, 12 bdls sheep skins, 19 bls calf skins, 2 bls deer skins, 11 dry hides, 59 dry 410 green hides, 3 cs cassimeres, 4 bls blankets, 6 bls flannels, $16,335 treasure.

FREIGHTS—Several miscellaneous takings are reported from San Francisco with but one grain charter. Owners continue to keep their views well up, as July is approaching. Our market is inactive and shippers are indifferent.

WHEAT—The cargo for the Merope has been picked up at Walla Walla, the interior press reporting 66 cents per bushel, sacked, being paid for it at that point. Offerings in that section are still free, although much of it cannot be delivered for a time. On the spot there is nothing doing with us, yet some little buying is reported from the valley. Prices are still quoted $1 51@1 52½ for valley, and $1 43@1 45 for Walla Walla. Advices to-day are of a slow character, San Francisco being the only market where a better tone is manifest. Chicago advances a fraction for May.

FLOUR—The Columbia took out 3955 hf 2291 qr sks Pendleton, 5959 hf sks Eureka, 2840 hf sks Brooklyn, 200 hf sks North Pacific and 1740 hf sks other brands, in all 78,609 bbls. This is a remarkable shipment, as it goes to an already crowded market. The local demand is largely supplied by the standards, outside brands finding it slow work to push in. Prices for standards are steady because of strength of holders.

OATS—Supplies continue to pour in, rendering sales more difficult and a satisfactory quotation hard to give. As top price 50 cents is generally given, with plenty offering at less.

PROVISIONS—Local market quite steady. Chicago shows a marked decline in pork and lard, with heavy dealing.

POTATOES—Supplies quite ample with shipments lessened. It is thought the undertone is improving, although any advance will be slow.

CHICKENS—Stocks have continued small, possibly owing to the excess of eggs, and extremes have been realized. Sales of choice at $7 and $7 50 were made, but quotations are $6@6 50.

EGGS—Quotations reduced to-day to 20 cents under more than plentiful stocks.

SHIPPING NOTES.

The Oregon is in the river and is due here by midnight.

The Beda started up this afternoon.

The Columbia sailed at 2:30 A. M. with 1253 tons freight.

We have spent over $100,000.00 in defending our right to the Durham Bull as our trade-mark. Undoubtedly he is to-day the most valuable Bull in the world. Now it stands to reason that we couldn't afford to protect him so thoroughly if BLACKWELL'S BULL DURHAM Tobacco, of which he is the representative, wasn't the BEST Smoking Tobacco ever made.

The sales of Blackwell's Bull Durham Smoking Tobacco far exceed those of any other brand in the world, simply, because it has been, is and will be, the best that can be made. All dealers have it. Look for trade-mark of the Bull on every package.

DR. PAUL M. BRENAN
IS THE MOST SUCCESSFUL PHYSICIAN ON the Pacific coast in the treatment of all Chronic and Difficult Diseases of the sexual Organs.
He will guarantee to cure any form of disease of the generative organs or private disease, if the patient follows his advice and treatment.
He has become an expert in the treatment of disease, weakness and derangement of the reproductive organs of both male and female, including diseases caused by the FOLLIES OF YOUTH, such as Spermatorrhea, or Seminal Weakness, or Loss of Perfect Vitality. Nearly two-thirds of all the chronic diseases spring either directly or indirectly from some derangement of the sexual system, and yet this subject is neglected by a majority of the Medical Profession.
Persons afflicted by any form of sexual disease or weakness often delay in calling upon the proper physician to that, from a sense of modesty and sometimes from ignorance, and permit those diseases to exhaust until their constitution becomes corrupted, their organization broken down, and the hope of future happiness blighted, until death becomes a welcome messenger to carry them out of their miserable existence. Everything is strictly confidential under all circumstances. Lost manhood perfectly restored.
Catarrh, Bronchitis, Throat Diseases, Skin Diseases, Rheumatism, Kidney Complaint and all diseases of the Eye and Ear, Stomach and Bladder, he can cure without fail, if they are curable, and if not, he will tell you so.
Consultation Free, and a list of printed questions sent to those living at a distance who cannot consult him personally. Enclose postage stamp for list.
Office—Nos. 32 and 34 Third street, corner of Alder, opposite Masonic Hall.
Office Hours—9 to 12 A. M., 2 to 5 and 7 to 8 P. M.

POTASH.
Iodide of Potassium is one of the strongest of the mineral-used in medicine, and has produced much suffering in the world. Taken for a long time and in large doses, it dries up the gastric juices, impairs digestion, the stomach refuses food and the patient declines in health and weight. Persons with Blood or Skin Diseases should be careful how they take these mineral poisons, as in most instances the effect of them is to almost permanently impair the constitution. To take the place of these poisons we offer you a safe, sure, prompt and permanent relief from your troubles. Swift's Specific is entirely a vegetable preparation, and it is easy to convince you of its merits.

I have cured permanently Blood Taint in the third generation by the use of Swift's Specific, after I had most signally failed with Mercury and Potash.
F. A. TOOMER, M. D., Perry, Georgia.

A young man requests me to thank you for his cure of Blood Poison by the use of your Specific, after all other treatment had failed.

TRIED HOT SPRINGS TWO LONG YEARS WITHOUT RELIEF.
Mercurial Rheumatism made me a cripple. After trying the springs two years, and the Mercury and Potash treatment until I was a skeleton and unable to do anything, I was prevailed upon to take a course of S. S. S. After taking three bottles, my appetite began to improve, and I gained flesh rapidly. When I had taken twelve bottles I felt as well as I ever did. It is now twelve months since I took S. S. S. My health and appetite are good, and I am able to attend to all the business I can get.

"PUT ME SQUARE ON MY FEET."
Twelve months ago I was persuaded to try S. S. S. for Malarial Rheumatism, which had crippled me so that I was unable to attend to business. Less than twelve bottles have put me square on my feet; have steadily improved; haven't felt better in ten years.

WOLFE'S
Schiedam Aromatic Schnapps.
As a general beverage, necessary corrective of water rendered impure by vegetable decomposition or other causes, as limestone, sulphate of copper, etc., the AROMATIC SCHNAPPS is superior to every other alcoholic preparation. A public trial of over thirty years' duration in every section of our country of UDOLPHO WOLFE'S SCHNAPPS, its unsolicited indorsement by the medical faculty, and a sale unequaled by any other alcoholic distillation, have insured for it the reputation for salubrity claimed for it. For sale by all druggists and grocers.

TORPID BOWELS, DISORDERED LIVER, and MALARIA.
From these sources arise three-fourths of the diseases of the human race. These symptoms indicate their existence: Loss of Appetite, Bowels costive, Sick Headache, fullness after eating, aversion to exertion of body or mind, Eructation of food, Irritability of temper, Low spirits, A feeling of having neglected some duty, Dizziness, Fluttering at the Heart, Dots before the eyes, highly colored Urine, CONSTIPATION, and demand the use of a remedy that acts directly on the Liver. As a Liver medicine TUTT'S PILLS have no equal. Their action on the Kidneys and Skin is also prompt; removing all impurities through these three "scavengers of the system," producing appetite, sound digestion, regular stools, a clear skin and a vigorous body. TUTT'S PILLS cause no nausea or griping nor interfere with daily work and are a perfect
